RESEARCH PERFORMANCE EVALUATION SCORE TABLE

Title - Name / Surname	
Surname	
Unit	

Add lines under the research activity type and indicate the activity and score. Use the APA 6 standard for appropriate types of activity. You can add as many lines as needed for an event type. Mark the lines where the activity is indicated with a yellow background.

Each study is scored on only one criterion.

Points are split equally between individuals for multi-author publications, patents, and for works of ideas and art (utility product / model, design), software and other products.
